Statements of Pass or Fail Conformance: The uncertainty of the measurement has been considered when determining compliance with specification. All measurements and test results guard banded to ensure the probability of false-accepts does not exceed {guard percent} in compliance with {standard}

Field Environmental Conditions: Temperature: between 17 and 23 degrees Celsius; rate of change not to exceed 1.0 C per hour. Relative humidity: from 30 to 70%. These conditions satisfy NIST requirements.
